FUTURE OF AGRICULTURAL AND  
FINANCIAL TECHNOLOGIES**

## **#BEATPLASTICPOLLUTION: AGRIVENTURE CELEBRATES WORLD ENVIRONMENT DAY**

Agriventure Limited proudly joined the global community in celebrating World Environment Day 2025 in Bogura and Rangpur, aligning with this year's powerful motto: #BeatPlasticPollution. Beyond raising awareness, Agriventure Limited underscored its commitment to environmental stewardship by launching a significant tree plantation initiative with farmers at their homesteads and also at the Agriventure office premises in both Rangpur and Bogura. Through such climate-resilient agriculture practices and direct environmental action, the company not only addresses the pervasive issue of plastic waste but also significantly contributes to building a healthier, more sustainable future for agricultural communities and the wider ecosystem.

## **FARMERS CONTINUED TO LEARN ABOUT COMPOSTING, NURSERY MANAGEMENT, AND AGRIBUSINESS IN BOGURA**

Agriventure Limited, with support from Citi Foundation, completed the 6-day GAIN-YASP Cluster Training at TMSS Community Centre, Bogura, from June 23-29, 2025. The comprehensive training program focused on three critical areas: organic compost production (vermicompost and trico compost techniques), professional >>Page 2

ENVIRONMENT DAY  
2025**

<<Page 1 Nursery Management and essential entrepreneurship skills for agricultural businesses.

"Seeing so many women and young people actively engaged gives us great hope for the future of sustainable agriculture in our region," noted Halima Begum, one of the participating farmers during the World MSME Day celebration held on June 27 as part of the program. Sessions were led by experts: Md. Ehsanul Kabir (GUK), KB Emran Hossain (Green 1 Seeds), Mahmud Hassan (GUK), and Utpal Kumar Dutta (M4C), Md. Moksed Ali (USDA). This initiative aligns with the broader mission of Agriventure Limited to enhance food security and create sustainable livelihoods through agricultural innovation. The organization plans to monitor participants' progress and provide continued support as they implement their new skills.

### FROM CAPITAL TO CODE: TAKEAWAYS FROM YASP'S EXPERT-LED WORKSHOPS

Agriventure Limited recently participated in two impactful YASP Co-Creation Workshops at Lakeshore Heights on June 19 and 28, 2025. The first session, 'Successful Fundraising Tactics in a Difficult and Uncertain Environment,' featured Bijon Islam (LightCastle Partners) and Mirza Salman Hossain Beg (iKori), offering practical insights into navigating today's fundraising landscape. The second workshop, 'Product Development Progress Assessment,' led by Md. Mizanur Rahman (BrainStation-23) and Abdus Sami (AppifyDevs), provided expert feedback on refining product strategies. These sessions equipped the Agriventure team with valuable knowledge, strengthening our commitment to innovation and excellence in agri-tech.

### AGRIVENTURE'S EID AL-ADHA INITIATIVE TO EMPOWER SMALLHOLDER FARMERS

This Eid al-Adha, Agriventure Limited launched a groundbreaking cattle service, making celebrations more meaningful for customers like Rashed Mahmud Avi. He was among twenty delighted customers who received healthy, contract-farmed cows, meticulously collected from farmers' homesteads and delivered to the capital, Dhaka. This inaugural initiative saw Agriventure engage with 20 women farmers in Bogura's Shibganj Area, providing funding for cattle farming for the holy Eid.

Agriventure maintained stringent oversight, closely monitoring the cattle's food chain, ensuring regular vaccinations, and promoting hygienic rearing practices, underscoring their commitment to quality and safety. The initiative's success is a testament to Agriventure's dedication, significantly contributing to food security by supplying reliable, safe animals. It has also directly fostered gender responsiveness by empowering women farmers with new economic opportunities.
